

## Harrison Assessments Suitability

This section includes work preferences and tendencies that you have selected for this job. The score to the right of each factor shows the applicant's score as calculated for each trait.

The green or red ball in each graph indicates the degree of positive (green) or negative (red) impact that the trait is predicted to have on job performance. The ball is always inside a bar graph, which indicates the potential range of impact that the trait can have on performance. Note that the bar graph can have a different length for each factor. The lengths and positions of the bars are determined by the weightings you have given to each trait in the Job Success Formula setup.

The questionnaire includes a technological 'consistency detector' that indicates the reliability of results by analysing the consistency of the answers on the questionnaire. ID: 104898's consistency score is 58 which indicates that ID: 104898 is 91.6% consistent in answering the questionnaire. This indicates a high likelihood that ID: 104898 was truthful, accurately self-aware, and able to concentrate on the questionnaire.
